

GEBERIT ACTUATORPLATES

# CHOICE IS **IMPORTANT**

DESIGN  
MEETS  
FUNCTION

Title page:

Cover plate: Geberit Sigma70, red gold

# MAKE IT YOUR OWN

**It's not just any bathroom, it's your bathroom.** You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right actuator plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. Because Geberit combines visual elegance with innovative functions.

## WHY NOT TRY OUT YOUR OWN DESIGNS?

We have included actual-size illustrations of various actuator plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the actuator plate that appeals to you.

# CONTENT

## 06 DESIGN & TRENDS

The new Sigma70 actuator plates are characterised by a minimalist, floating design for the highest aesthetic requirements.

## 50 TOUCHLESS

## 64 GEBERIT DESIGN FAMILY

Seamless design.

## 68 GEBERIT FUNCTIONS

Choice is important.

## 22/44 PRECIOUS METALS

Selecting the right design options for a bathroom means ensuring that individual nuances are perfectly coordinated. Actuator plates in new, fashionable metal colours are the perfect match for the latest trends in taps, while plates made of glass, concrete-look solid surface materials or natural Mustang slate and black walnut blend harmoniously into almost any decor style. The ideal combination for your dream bathroom is just waiting for you to discover it.

SIGMA70

# FLOATING DESIGN, MINIMALIST AESTHETIC

A sleek, frameless design, convex surface and slimline structure combine to create the floating illusion of this innovative actuator plate. Its clean, geometric design and sophisticated materials meet the highest aesthetic standards and make the plate a firm favourite for all those who appreciate its architectural design language.

■ GEBERIT

## PRECISION MECHANICS

The Geberit Sigma70 actuator plate uses a tried-and-tested mechanism with two perfectly coordinated buttons for the water-saving dual flush. The gap between the buttons is so narrow and precise that the surface of the plate appears to be made of a single piece. This minimalistic design supports simple and intuitive operation.

■ GEBERIT

A variety of colours and materials for aesthetically sophisticated bathroom furnishings that have been perfected down to the last detail: Everything you need to know about Geberit Sigma70 can be found from **page 28**.

## VARIETY

Sophisticated materials and elegant colours underline the architecturally clean design of the Geberit Sigma70 actuator plate. The plate is available in black, sand grey, lava and white glass, in red gold, black chrome and brushed stainless steel, in brass, as well as in black matt and white matt.

# AESTHETICS AND FUNCTION

**Unobtrusive yet reliable.** Geberit ensures, supreme convenience and durability, all from behind the wall. All that remains visible is the interface with the technology: the actuator plate. The selection of actuator plates is important because you will live with your selection for years. Choose the actuator plate that best suits you and your bathroom from a wide range of options.

New ideas and functions can always be derived from a rectangular shape. This is how Geberit enables you to come up with a contemporary, personalised bathroom design.

# THE PERFECT SHAPE: THE CIRCLE

**Aesthetic curves for a relaxing bathroom experience.** It is impossible to improve on circles; they can only be restaged and rearranged. Geberit actuator plates use new interpretations of round forms to adapt to today's trends. With or without rims. With finely honed edges. Harmoniously adjacent or flowing one into another. And the result is always well rounded.

# NO-TOUCH FLUSH

**Electronic hygiene.** Recent surveys have revealed that fewer and fewer bathroom users are happy to actuate the flushing process manually – instead, they are increasingly looking for sanitary technology that features touchless operation. By offering electronic WC flush actuators using IR sensors, Geberit has a solution to meet this growing demand. And while it requires your toilet to have an electrical connection, this is a feature that is fast becoming the norm anyway.

TOUCHLESS FUNCTION

Actuator Plate: Geberit Sigma80, black glass  
Washplace: Geberit VariForm  
WC: Geberit AquaClean Mera shower toilet

# GEBERIT SIGMA80

**Touchless lighting.** All-glass design with light strips instead of buttons – Sigma80 actuator plates feature touchless operation and thus ensure optimal hygiene with every flush.

- Water-saving dual flush actuation.
- Touchless flush actuation.
- Surface made of high-quality glass.
- Durable LED lighting in five colours.
- Sensor-controlled switch-on function.
- Multiple award-winning design.

## A COLOUR SCHEME TO SUIT YOUR MOOD

When you approach the toilet, two light bars in five selectable colours display the position of the flush actuations.

# GEBERIT DESIGN FAMILY

**Seamless design.** Toilet and urinal flush control actuation featuring a coordinated design: the result is a single design thread running through the whole bathroom. The flush actuations for urinals, which match the actuator plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

GEBERIT CISTERNS SIGMA AND OMEGA

# FOR ANY APPLICATION

**So that everything matches:** used in combination with the matching concealed cistern, Geberit actuator plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small actuator plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 50 years.

You therefore have a wide selection of both Geberit actuator plates and reliable Geberit installation elements for installation behind the wall. And Geberit actuator plates bear the name of the suitable cistern so that you can be certain that everything will match.

Geberit Sigma concealed cistern

- Construction height 112 cm
- Front actuation
- Barrier-free and height-adjustable models available
- Also available as a corner element
- Odour extraction (recirculating air / exhaust air)
- Suitable for Geberit remote flush actuation

Geberit Omega concealed cistern

- Completely flexible with construction heights of 112 cm, 98 cm and 82 cm
- Front actuation
- Additional top actuation with construction heights 82 cm and 98 cm
- Particularly small actuator plates
- Suitable for Geberit remote flush actuation

## CHOICE IS IMPORTANT

**Intelligent functions from Geberit.** If you can start your toilet flush without touching it, if elegant colour effects add atmospheric moments to the time you spend in your bathroom, or if unpleasant smells are efficiently extracted even before anyone notices them, then this means your plumber has installed state-of-the-art Geberit sanitaryconvenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

## GEBERIT REMOTE FLUSH ACTUATIONS MORE CONVENIENT BY FAR

**The optimal solution.** Regardless of the construction situation, using a remote flush actuation can be a the right choice. For instance, in order to locate the flush actuation at a different location, if the design for the WC flush control calls for small but elegant, or if using a Geberit Omega concealed cistern with low construction height causes forceful contact between the WC lid and the front actuation. For such cases, Geberit offers various remote flush actuations with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

**TOUCHED A THOUSAND TIMES**  
The pneumatics of the Geberit remote flush actuations type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

→  
**QUITE DISCREET IN FACT**  
Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

GEBERIT DUOFRESH INSERT  
FOR IN-CISTERN STICKS

# HYGIENIC FRESHNESS FOR WEEKS

**Pull the actuator plate aside, insert the stick, then close the plate.** That's how easy it is to ensure weeks of hygienic freshness with the insert for in-cistern sticks. The optional insert is suitable for most Geberit actuator plates in the Sigma range and can even be installed by a plumber at a later date. It guides the in-cistern stick down a chute to a fixed position below the surface of the water in the cistern. Once there, the stick dissolves slowly and ensures hygiene and cleanliness in every flush throughout the entire WC ceramic appliance, as well as providing a fresh fragrance.

1. It doesn't get any simpler than this: pull the actuator plate aside.
2. Place the in-cistern stick into the insert behind the plate.
3. Close the plate and enjoy the freshness with every flush.

## ODOUR EXTRACTION **FRESH AIR** FOR EVERYONE

**Unpleasant odours in the toilet are a thing of the past.** What is long since standard over every kitchen stove can now be applied in the bathroom. An effective way to get rid of unpleasant odours. The Geberit DuoFresh module removes the bad air directly from the WC ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches, opening windows and the like completely unnecessary. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. The odour extraction is therefore also a great idea for guest WCs. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any actuator plate from the Sigma range.

# TODAY'S TOILETS ARE MOVING WITH THE TIMES

**Electrical connections now come as standard.** After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit or installing the coloured LED strips that come with the touchless Geberit actuator plate Sigma80.

1. Geberit DuoFresh module with integrated orientation light. Suitable for several actuator plates of the Sigma series.
2. Touchless Geberit actuator plate Sigma80, glass reflective.
3. The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
