

GEBERIT BAMBINI WC AREAS

TOILETS FOR **EVERY** **AGE GROUP**

Geberit Bambini WCs
in three child-friendly
heights.
↓

Floor-standing WC (1–3 years)

Floor-standing WC (4–5 years)

Wall-hung WC (6–8 years)

In standard bathrooms, the toilets are often too high for children and they have to stretch to reach the sink. This is why Geberit offers a comprehensive range of toilets to suit children of different ages. The Geberit Bambini WCs are available in three heights – 24, 30 and 35 cm – and can be installed as usual on Geberit GIS or Geberit Duofix elements. These are specially adapted to suit the needs of different age groups and body sizes. This means children can continue to enjoy Bambini WCs from potty age until they start school.

Coherent colour concept
for all Geberit Bambini
elements.

GEBERIT BAMBINI PLAY AND WASHSPACES

PLAYTIME IN THE BATHROOM

The Geberit Bambini play and washspace features a modernised and timeless design. Up to three levels are integrated into the washing troughs, each suitable and accessible for different age groups. These levels are presented as gentle waves in a playful and flowing design. Available in various colour combinations or even as a chrome-plated version, the Geberit Bambini washbasin taps bring something new and different to the washbasin area. The Geberit Bambini washbasin taps are available with either a single-lever mixer or a sensor.

The sloping surface between the washbasins is ideal for water-based activities, while the structured surface provides a multi-sensory experience.

→ The Geberit Bambini play and washspaces are available in three different versions.

↑ The Varicor® surfaces are hard-wearing and easy to clean for optimal hygiene.
